         Report:           NOR760

         Report Desc:      CUM FYTD TSF STATS BY TRNG AGNT/CDP/MON AGGREGATED

         UserID:           PDTC053

         Report Date:      2000-12-05  1214

         Request Id:       275270

          * * * *              PARAMETERS            * * * *

         Description                      Value
         --------------------------------- --------------------
         FISCAL YEARS                      1998
         OUTPUT LEVELS                     DETAIL

         UIC'S                             35420

Report Explanatory Notes Page

This report presents data that is aggregated and is a snapshot in time.  Aggregated means that it is
summed up to a particular level and certain calculations have been performed at that level.
Also, this data is a snapshot of the "live" data on the database as of a certain date.  On the report, the
date of aggregation is labeled AS OF.  This is the date through which the data was last aggregated.  Even
though the process to aggregate the data may have been done two weeks later, the AS OF date represents the
cut-off date for the data that was to be included in that aggregation.

Abbreviations used in this report:

CM = Calculation Method used in determing Planning numbers.
```

```
        P = Plan
        C = Class
        Q = Quota

   GR = Group Reporting indicator
   If there is a "G" in this column, then that particular month's information was reported via Group
   Reporting.  If it is blank then it was reported via STASS (SSN level).

   UTIL%  = Utilization Percent
   ACAD   = Academic
   NACAD  = Non-Academic
   DSNRL  = Disenroll
   PCT    = Total Non-Grads Percentage

   Additional Information:

   The value "NA" (for Not Applicable) will be supplied for the PLAN UTIL% and DYNQ UTIL% columns when either
   the PLAN INPUT or DYNQ INPUT are zero, respectively.  The UTIL% columns will be zero when the ACTUAL INPUT
   column is zero.

   ACTUAL INPUT  /  PLAN or DYNQ INPUT  =  PLAN or DYNQ UTIL%
        20       /         0           =        NA
         0       /        20           =         0

   Total Non-Grads Percentage (PCT) is calculated by dividing the Total Non-Grads by the Student Flow.

   Total Non-Grads          = ACAD + NACAD + DSNRL
   Student Flow             = (ACT INPUT + ACT GRAD + Total Non-Grads) / 2
   Total Non-Grads Percentage = (Total Non-Grads / Student Flow) * 100

   Total Non-Grads Percentage is rounded to a whole number.

   "NA" will appear in the Total Non-Grads Percentage column (PCT) if the Student Flow equals zero.
   If PCT is greater than 999 then *** will be shown in the column.
